

Eric Beaucé | Curriculum Vitae

61 Route 9W, 201J Seismology, Palisades, NY 10964 USA

✉ ebeauce@ldeo.columbia.edu • 🌐 ebeauce.github.io/

Academic Positions

- **Lamont-Doherty Earth Observatory, Columbia University** **New York, USA**
Postdoctoral Research Scientist (Brinson Fellow) 02/2022 - present
- **Massachusetts Institute of Technology** **Cambridge, USA**
Postdoctoral Researcher 09/2021 - 01/2022
- **Massachusetts Institute of Technology** **Cambridge, USA**
Research assistant/Teaching assistant 2016 - 2021
Ph.D. Thesis: Analyzing the Collective Behavior of Earthquakes to Understand Fault Mechanisms Better. Supervised by Robert D. van der Hilst and Michel Campillo. Available at <https://tinyurl.com/EBPhDThesisManuscript>.

Education

- **Massachusetts Institute of Technology** **Cambridge, USA**
Ph.D., Geophysics 2021
- **Massachusetts Institute of Technology** **Cambridge, USA**
Master of Science, Geophysics 2018
- **Ecole Normale Supérieure de Lyon** **Lyon, France**
Master of Science, Physics 2016
- **Ecole Normale Supérieure de Lyon** **Lyon, France**
Bachelor of Science, Physics 2014

Pre-Ph.D. Research Experience

- **Institut des Sciences de la Terre** **Grenoble, France**
6-month internship supervised by Michel Campillo 2016
Development of automated methods for earthquake detection, based on template matching, and application to the Southwestern Alps. Analysis of the catalog in terms of Poissonian vs time clustered seismicity.
- **Departemento de Geofísica** **Santiago, Chile**
3-month internship co-supervised by Benoit Derode and Jaime Campos 2015
Source characterization of intermediate-depth earthquakes: estimation of static stress drops

and seismic moments from earthquake spectra.

- **Laboratoire de Géologie, Terre, Planète, Environnement** **Lyon, France**
2-month internship supervised by Vincent Langlois 2014
Development of a discrete element numerical model of a cohesive granular material in C/C++ to simulate landslides. Cohesion was modeled by Euler-Bernoulli beams.

Teaching Experience

- **Massachusetts Institute of Technology** **Cambridge, USA**
Robert D. van der Hilst's teaching assistant for Essentials of Geophysics 2019
Introduction to seismology, gravity, planetology, magnetism, and geodynamics at the graduate level.
- **Massachusetts Institute of Technology** **Cambridge, USA**
Brent Minchew's teaching assistant for Remote Sensing 2018
Introduction to wave physics, Maxwell's equations, and their application to radar methods at the undergraduate level.

Field Experience

- **San Jacinto Fault** **California, USA**
Preliminary passive seismic experiment (FaultProbe project) July 2018
Deployment of 400 one-component geophones in two arrays on either sides of the San Jacinto Fault. The project aimed to monitor temporal changes of the P-wave velocity on the fault.
- **Roseau Valley** **Saint Lucia**
Groundwater flow imaging January 2018
Self-potential (SP), resistance and gravity survey to map groundwater flow and identify relevant locations for fresh water wells.
- **New England** **New England, USA**
Diverse subsurface exploration geophysical methods 2016 - 2020
Educational field trips with the SEG Student Chapter of MIT. Training to active source seismic acquisition (2x24 geophones and one sledge hammer), gravity measurements, SP/resistance and magnetometry.

Technical and Personal skills

- **Programming Languages:** C, C++, CUDA, Python, Fortran, Shell, Matlab.
- **Parallel Computing:** OpenMP, CUDA.
- **Machine Learning Libraries:** Pytorch, Tensorflow, Keras, Scikit-learn.
- **Super-computer Job Scheduler:** Slurm, OAR.

- **Open-source Software Developer** (<https://github.com/ebeauce>):
 - Fast Matched Filter (https://github.com/beridel/fast_matched_filter): Template matching optimized on CPUs and GPUs with Python and Matlab wrappers.
 - BeamPower (<https://github.com/ebeauce/beampower>): Backprojection optimized on CPUs and GPUs with Python wrappers.
 - BPF (https://github.com/ebeauce/Seismic_BPF): Complete earthquake detection and location workflow using Fast Matched Filter and BeamPower.
 - ILSI (<https://github.com/ebeauce/ILSI>): Python package for stress inversion.
- **Languages:** French (native), English, Spanish.

Peer-reviewed Articles

2022.....
